

# TEXAS DECA NETWORKING BINGO

Practice your networking skills and meet some new people. First, you must shake the person's hand and introduce yourself to them. After introductions have been made, discuss your DECA story and see if they match any of your blank boxes. If they do, have them write their name and the answer (where applicable) in the box. The first person to have 5 names in a row wins. You do not have to sign someone's box if they don't shake your hand and make an introduction. To get a bingo, you may not have the same signature multiple times in that row.
